- b. The board is hoping to have the heating system restored by the beginning of the next heating season. The boiler manufacturer indicated that because there is a leak on the boiler block, the boiler will need to be replaced. The board will be contacting an independent certified engineer(s) to evaluate the current boiler system/install (if it was piped correctly, initial start up done, etc.) to determine the cause of the recurring issues.
- c. It was requested that information on Founders Day events and the Open House be placed on the website.

d. Building security was discussed. Keys have been given out to various contractors during construction. There is a concern that all keys may not have been returned. Members of the board would like to tighten up the security of the building. The chairman discussed the process for changing out the core locks. A breakdown of costs for replacing door cores throughout the building was presented. Commissioner O'brien presented a quote from Wolfe lock for \$1,125.50 for new keys/changing out cores of building doors. Upon completion, new keys will be issued to everyone. Key assignments will also change. Chiefs requested that access to the chiefs' office be limited to just the chiefs. Commissioner Voigt felt the current system is adequate. There was a question on how many keys/what leveled keys were originally assigned. Though there is a key list, some members of the board questioned the accuracy of the list. Additionally, the building warranty binder has come up missinganother reason for improving the security of the building and offices within the building. The chairman clarified that existing keys would be turned in and new keys would be issued. Assistant Chief Dyer suggested that members utilize the current fob system we have installed rather than the use of the keys. Commissioner O'Brien indicated that the fob system has been problematic in the past and was unreliable as an exclusive method of entry into the building. Bob LeGere indicated that he had initially overseen the distribution of the keys and that the keys were passed onto Commissioner Voigt. He also indicated that some of the contractor keys were returned. There is an extra fob port if the board chooses to have it installed.

Motion to approve the lawn care maintenance bid from Richard Battenhousen for \$8,554.00 made by Pete O'Brien and seconded by Jeff Voigt. Approved 5-0.

Motion to approve core change out by Wolfe Locks for \$1,125.50 made by Pete O'Brien and seconded by Steve Slattery. 4 Approved, 1 Opposed, 0 Abstain.

8. New Business

- a. There have been multiple heating system failures in the last two years. As a result, the commissioners are exploring options for a backup heating system for the truck bay area. Commissioner O'Brien outlined some potential ideas such as a Hot Dawg propane heater or an electric heater. A heating assessment by an independent contractor will be done to determine the most appropriate system needed to adequately heat the truck bay. There will be more information at the next meeting. Commissioner Voigt asked about the necessity for two heating systems. Commissioners O'Brien and Riehl indicated that there are a variety of commercial buildings that have them. It was stressed that they are not looking to have two complete boiler systems, but that they are looking for a backup system to minimally heat the bay to keep things running. Commissioner Riehl emphasized that the objective is to protect CFD's investment.
- b. The treasurer requested approval to purchase a replacement laptop battery from Amazon Business for \$38.98.

Motion to approve laptop battery from Amazon Business for \$38.98 made by Kevin Riehl and seconded by Amanda Gannon. Approved 5-0.

Motion to approve the purchase of EMS supplies not to exceed \$300 made by Pete O'Brien and seconded by Amanda Gannon. Approved 5-0.

Motion to approve repair to fire police pants not to exceed \$40 made by Pete O'Brien and seconded by Jeff Voigt. Approved 5-0.

Motion to approve the purchase of checks from Deluxe for \$277.25 made by Pete O'Brien and seconded by Amanda Gannon. Approved 5-0.

9. Privilege of the Floor

Janet Reville expressed her approval for replacing door cores to improve building security. Additionally, she suggested getting two independent evaluations on the boiler/install. With her background in engineering, she requested being involved when it comes time to inspecting/evaluating the system. She also suggested reaching out to Hueber Breuer to replace the missing warranty binder.

Assistant Chief Dyer reached out to them during the board meeting. Hueber Breuer will look into if they have an electronic version of the warranty information.

Trent Mitchell inquired about the installation of an exhaust system for the kitchen stove. Chairman O'Brien indicated that the primary focus was on the faulty boiler system. The exhaust system would be discussed at a later date.

Bob LeGere welcomed new commissioner Steve Slattery.

10. Adjournment

Motion to adjourn made by Kevin Riehl and seconded by Amanda Gannon 8:46 p.m. Approved 5-0.

We figure the interest on your line of credit by multiplying the daily periodic rate by the "Average Daily Balance" of your line of credit (including current transactions) and multiplying by the number of days in the billing cycle. To get the Average Daily Balance we take the beginning balance of your line of credit each day, add any new advances or debits, and subtract any payments and credits, any non-financed fees and unpaid interest. This gives us the daily balance. Then we add up all of your daily balances in the billing cycle and divide this total by the number of days in the billing cycle to get your Average Daily Balance. Average Daily Balance method (Balance Subject to Interest Rate): Your interest is

While you do not have to pay the amount in question, you are responsible for the remainder of your balance.

We can apply any unpaid amount against your credit limit.

Explanation of Finance Charge: Your Finance Charge attributable to interest (hereinafter referred to as interest) is computed using the Average Daily Balance method.

Average Daily Balance method (Balance Subject to Interest Rate): Your interest is computed on all purchases and cash advances (collectively "advances") from the date each advance is posted until we receive payment in full (there is no grace period). We figure the interest on your line of credit by multiplying the daily periodic rate by the "Average Daily Balance" of your line of credit (including current transactions) and multiplying by the number of days in the billing cycle. To get the Average Daily Balance we take the beginning balance of your line of credit each day, add any new advances or debits, and subtract any payments and credits, any non-financed fees and unpaid interest. This gives us the daily balance. Then we add up all of your daily balances in the billing cycle and divide this total by the number of days in the billing cycle to get your Average Daily Balance. Daily Balance.

Explanation of Finance Charge: Your Finance Charge attributable to interest (hereinafter referred to as interest) is computed using the Average Daily Balance method.

Average Daily Balance method (Balance Subject to Interest Rate): Your interest is computed on all purchases and cash advances (collectively "advances") from the date each advance is posted until we receive payment in full (there is no grace period). We figure the interest on your line of credit by multiplying the daily periodic rate by the "Average Daily Balance" of your line of credit (including current transactions) and multiplying by the number of days in the billing cycle. To get the Average Daily Balance we take the beginning balance of your line of credit each day, add any new advances or debits, and subtract any payments and credits, any non-financed fees and unpaid interest. This gives us the daily balance. Then we add up all of your daily balances in the billing cycle and divide this total by the number of days in the billing cycle to get your Average Daily Balance.
